

Wison Technology Corp.

OR200

Features

- Excellent image quality
- Durable and strong sensor surface
- Standard USB interface supported
- Plug and play installation
- Counterfeit fingerprint rejection
- Superior ESD resistance
- 128*8 bits EEPROM used for data memory purpose (Optional)

Specifications

Interfaces	USB V1.1
Fingerprint Sensor	CMOS reader
Fingerprint Sensor Resolution	500 dpi with distortion<1%
Capture Area	13mm x 16mm (256 x 320 pixels)

Dimension	51mm(L) x 23.3mm(W) x 25mm(H)
Image Capture Time	8 frames/ sec
Verification Time	< 1 sec.
FAR	0.001%
FRR	1%
Power Consumption	Max Current < 120mA
Operating Environment Temperature	0° C ~ 60° C
Supported OS	Windows 2000/ XP/ 7, Vista
Software	Demo Program for Windows Series
